Re: D.T.E. 00-70 — Standard Offer Service Fuel Adjustment – Boston Edison Company, Cambridge Electric Light Company, Commonwealth Electric Company

Dear Secretary Cottrell:

On December 3, 2003, Cambridge Electric Light Company (“Cambridge”) and Commonwealth Electric Company (“Commonwealth”, together, the “Companies”) submitted for approval tariffs that were designed to reduce the Standard Offer Service Fuel Adjustment (“SOSFA”) to 1.222 cents per kilowatt-hour (“kWh”) for Cambridge and Commonwealth, for effect on January 1, 2004. After questions from the staff of the Department of Telecommunications and Energy (the “Department”), the Companies concur that there is an error in the calculation of the SOSFA, which should have been 1.223 cents per kWh. Accordingly, the Companies request that the Department approve the replacement tariffs, enclosed herewith.

The calculation of the SOSFA is based on an index of published oil and gas fuel prices. The error occurred because the Companies did not include the Platt’s Oilgram price dated October 13, 2003 (Columbus Day). Because the day was a holiday, the Companies erroneously did not believe that a price was published. Exhibit 1 (Revised), enclosed herewith, shows the changes to the calculation of the SOSFA submitted on December 3, 2003, by including the additional data point. As shown on Exhibit 1 (Revised), the rolling average Market Oil Price increases to \$4.350492/MMBtu, which results in a Fuel Adjustment factor 1.239819. When this factor is multiplied by the base Standard Offer Service rate of 5.1 cents per kWh, the SOSFA is recalculated to be 1.223 cents per kWh.¹

¹ The Companies have not resubmitted Exhibit 2 because of the de minimus nature of the change.

Mary L. Cottrell, Secretary
Standard Offer Service Fuel Adjustment
D.T.E. 00-70

Accordingly, the Companies request approval of the enclosed replacement tariffs, which include the revised SOSFA amount.

Thank you for your attention to this matter.

Sincerely,
